

ABUNDANT
VENTURE PARTNERS

Senior Analyst, Venture Studio

Job Description
2024

The Mission That Unites Us

Abundant is a purpose-based venture creation company focused on improving the human condition. The Abundant Platform de-risks and accelerates healthcare technology advancements—by health systems, for health systems—with purpose-driven collaboration and investments for a healthier future.

Founded in 2011, Abundant was formed with core beliefs that drive our action and investment:

- It is still possible to do good while doing well.
- If it is big enough to care, it is big enough to share.
- We are accountable to ourselves, one another, and for the world around us.

Within our Venture Studio, we offer specialized talent, industry know-how, and proven playbooks that streamline the commercial success of digital health entrepreneurs and companies. Our rigorously vetted ventures are supported with rapid market feedback, swift decisions, and mature company systems from day one, significantly reducing time-to-growth for portfolio companies.

The Abundant Alliance (“Alliance”) enables health systems to join forces and shift from “defense to offense” in order to counter the investment and disruption created by insurgents who are betting against the health system model. The Alliance is a collaborative of health systems convened by Abundant Venture Partners that launch and invest in new companies, designed by health systems for the benefit of health systems, to accelerate and scale a meaningful impact on operating budgets, balance sheets, and employee engagement.

Position & Purpose Summary

This role is an invaluable opportunity to become immersed in the digital health ecosystem of early-stage investment evaluation and venture creation. The Senior Analyst position will gain exposure to key areas of investing and business operations while supporting Senior Leadership at Abundant during every phase of the investment evaluation and venture creation process, from due diligence to deal execution. This position will serve as a member of the Venture studio Team.

You’re excited about this opportunity because:

Venture Studio Support: Support all aspects of a venture decision, from idea due diligence to venture creation and execution. Provide a thorough assessment of all relevant data to support the decision process.

- Conduct financial modeling, due diligence, secondary research, and analysis on prospective new venture opportunities to support the decision process
- Understand and update relevant indicators for healthcare technology markets and players through market opportunity analysis and competitive landscaping
- Analyze, size, and segment addressable markets, identify sources of sustainable competitive advantage and identify and synthesize market trends and risks
- Create reports, memos, venture overview briefs, and decks from research that will serve to advise the team

- Prepare marketing materials and presentations to share with clients that are concise and well-structured
- Present materials and presentations to clients

Project Management: Support the day-to-day project management of new ventures by supporting project activities. You will help develop, execute, and achieve project goals, timelines, and success markers.

- Coordinate and lead internal and external meetings
- Develop a detailed project plan to monitor and track progress
- Manage changes to the project scope and schedule
- Manage the relationship with clients and stakeholders
- Create and maintain comprehensive project documentation, including legal documentation
- Take detailed briefing notes and clarify the specific requirements of each project

We're excited about you because:

- You have 5 years of experience in healthcare tech/services-focused strategy consulting, investment banking, venture capital, private equity, product marketing, or other relevant roles, bringing a strong analytical background
- You're a master at using Google Slides to create executive-level presentations and know your way around Excel/Google Sheets, especially the advanced functions.
- People have applauded your strong work ethic, and you can envision, prioritize and complete parallel projects without requiring hands-on guidance in a fast-paced, fluid environment.
- People want to hear from you because you know how to communicate effectively with various stakeholders and can tailor a message for a specific audience.
- Your attention to detail is exceptional, and you can manage multiple projects in your sleep.
- You have a voice, and you use it to question the status quo and provide insightful perspectives that push forward-thinking.

You'll love working here because:

You'll feel secure.

- Competitive compensation package plus equity
- Medical, dental, and vision insurance with 100% paid premium
- Retirement benefits
- Flexible paid time off, including volunteer days

You'll be part of a high-performing team where you can contribute, live in your genius, and grow.

- This is a chance to work with some of the top experts in the field, creating early-stage companies that help define new markets of opportunity and support existing companies that are making a difference in healthcare.
- You will have a direct impact on our venture decisions and our portfolio
- We want you to grow with us, this role offers many possibilities for upward mobility
- We encourage everyone to be authentic and seek to build and celebrate diverse teams

- There is no inner circle, Executives to interns share information, ideas, and directly add value.

You'll feel your best so you can do your best.

- Gym membership
- Guided meditation
- Conscious Leadership Forum
- Pantry stocked with loads of fresh food options
- Freshly brewed coffee. All-day, every day.

* If this sounds like a company you would like to join and a role you would thrive in, please don't hold back from applying! Whatever skills you bring to the table or background you're coming from, we welcome you to start a conversation with us. We're looking forward to learning more about you!
